**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4 and 6 are under 35 U.S.C. 102(b) as being clearly anticipated by Marchant (4,612,626).

As per claims 1,3 and 4, Marchant discloses in figure 1 an FFT (14) including partitioning the FFT into three or more stages which are calculated sequentially on a processor (see figure 3). The FFT are performed by computing radix-R butterflies in a block of  $N/R$  overlapping butterflies in the first stage (see col. 4, line 66 – col. 5, line 4), computing radix-R butterflies in a first block of  $N/R^2$  overlapping butterflies (see col. 5, lines 16-17) of the result from the first stage, then computing radix-R butterflies in a second block of  $N/R^2$  overlapping butterflies (see col. 5, lines 18-19) of the result from the first stage as claimed.

As per claims 2 and 6, Marchant also discloses in figure 1 a twiddle factors tables (16) for storing a full set of twiddle factors as the claimed first set, and any subset thereof can be seen as the claimed second set.

4. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Marchant (4,612,626).

Although Marchant does not discloses the FFT in radix-4, it would have been an obvious application to a person of ordinary skill in the art to apply the FFT as disclosed by Marchant to process FFT in radix-4. It is because FFT in radix-4 is well known in the art, and the FFT as disclosed by Marchant is well suitable for processing FFT in radix-4 which would reduce the processing time.

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment filed on 05-09-03 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until

Art Unit: 2124

after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D Ngo whose telephone number is (703) 305-9764. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki can be reached on (703) 309-9662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
